“ Too many good memories to print here...like the time we(I was an apprentice) had to hook up a floppy precip. girder at M.C. NIPSCO...every time the wind shifted , the 50' beam would flop back and forth 12"...my hiney was soo tight... that's when he showed me the whip the eye of the choker trick...he could dish it out and could take it back and he was a heck of a Boilermaker and Brother!...sad to see him leaving us so young....God Bless Him...
